The town of Anacortes, Washington is known to many as a maritime destination ... and as the main entrance to the San Juan Islands. It is a historic and scenic town with 360-degree views of Puget Sound and mountains. Located in the heart of Old Town Anacortes, the Majestic Inn and Spa is conveniently located just a short walk away from Anacortes Museum and Maritime Heritage Center, the Cap Santé Boat Haven, the Anacortes Community Theatre and Cap Sante Park—all within one mile of the Cap Sante Marina.

It's a refined retreat. Each of the Majestic's rooms and suites provide a partial or full view of the

Guemes Channel, the San Juans, Mt. Baker, historic downtown Anacortes, Fidalgo Bay and/or the Cap Sante Marina. Inside them you'll find the sort of tastefully appointed amenities one expects from an upscale boutique hotel.

A full-service spa, a steam room and a 24-hour fitness center are available at this smoke-free inn. There's free WiFi in the public areas; free self-parking is also provided.

Breakfast, lunch and dinner are served in the 5th Street Bistro, and there is a full bar that's home to a terrific happy hour. The Rooftop Lounge offers wine, beer and cocktails ... and magnificent views, both

during the day and after dark. (Don't worry about the evening chill; there are space heaters and a firepit, as well as blankets.)

All 52 rooms offer free WiFi, mini-bars, and LCD TVs with cable channels. Other amenities available to guests include DVD players, room service and premium bedding.

In a world filled with stressful demands on your body and time, you won't be disappointed with the award-winning Apothecary Spa. Visiting mariners are welcome to enjoy the relaxation of several spa treatments on site. The Apothecary provides a unique path to wellness through services, workshops

and professional care—all within a relaxed and nurturing environment that inspires a healthy attitude toward life. The team will take care of you with professional, quality care that is likely to keep you coming back.

Another feature of the Majestic is the grand ballroom, which is well-suited for events and weddings. And if you're looking for a more intimate space to celebrate with family and friends, the Majestic features six indoor and outdoor event spaces designed to accommodate parties of varying sizes.

The building itself, originally known as the McNaught Building, was built by the McNaught Land Co. in the late 1800s in anticipation of Anacortes becoming a booming railroad metropolis.

Not only did Anacortes fail in that regard, but the city's business district shifted to across town. So the building was moved in 1904, pulled by horses to its present location. It then spent nearly 80 years as home to the Anacortes Mercantile Company, before eventually falling into disrepair, being condemned and scheduled for demolition.

Saved by a new owner and conversion into a hotel in 1983, the building was gutted by fire in 2001, when a cat knocked over a space heater in the library. Local investors repaired and renovated the building before it was sold and re-opened in 2001 under its current name.

As a destination Anacortes has much to offer—and your stay at the Majestic Inn and Spa will add some wonderful memories of your visit. ✈️
